

# HAPPI-MAT

## PRODUCT DESCRIPTION

Happi-Mat is produced from organically grown hemp-stem fibre with no other additives and no chemical processing.

It is a small square mat of non-woven fibres that may be conveniently placed into rodent cages as a supplement to their normal bedding material.

Its form is attractive to the animals that will actively redistribute it to make a soft natural nest and it is especially suited to the nesting behavior of rodents.

Moisture content: 4.4 (normally).

Density: 1500 grams/m<sup>2</sup>.

Dimensions: 50x50xH7.5 mm.

Irradiated ~ 25kGy.

## PRODUCT CODE & PACKAGING

Product code: 23-12-150.

Packed in a sturdy cardboard box with 4 sealed polythene bags of 252 mats each, a total of 1008 mats.
