Spezialdiäten GmbH

ALL ABOUT SSNIFF

ssniff spezialdiäten GMBH is a leading manufacturer specialized in production of laboratory animal diets with 60+ years of experience based in Germany.

SCANBUR is pleased to announce that we exclusively represent ssniff in Denmark, Sweden, Norway and Finland. A wide range of regular diets for laboratory animals including breeding and maintenance diets for special strains and diets for long-term maintenance (ageing, toxicology studies):

- Regular diets ('chow', grain based)
- Purified diets
- Special diets \pm test compounds
- Compressed and extruded pellets

All diets are available as autoclavable and/or irradiated diet.

From each batch of diet samples are taken and analyzed by accredited laboratories to ensure that the diets are hygienic and in compliance with the relevant legislation and the GV-SOLAS guidelines.

Standard packaging are 10 kg bags; other sizes are available on request. Sterilized diets are also available in small, vacuum sealed, multi-layer bags. The diets are delivered on brand-new, heat treated pallets.

ssniff is certified in accordance with:

- ISO 9001 : 2015
- HACCP regulation (EC) No 852/2004
- GMP
- US Food and Drug Administration (FDA)
