

PPE

A selection of essential PPE.
helping to keep your people safe.

Please share this guide with any person or department that you feel may benefit from readily available PPE supplies.

Datesand has been meeting and exceeding the supply needs of customers for over 40 years.

They have been supplying PPE to the NHS and the core life science sector for over 30 years and whilst most of their leading brands have been in short supply due to Covid-19 they have utilised their purchasing links with international manufacturers to secure reliable supplies of essential PPE suitable for use in industry, healthcare and public areas.

This essential guide provides a snap-shot, giving you quick access to high demand products which are in short supply. These products are all available for speedy delivery.
