

IS YOUR ANIMAL FACILITY MORE THAN 8 YEARS OLD? THEN YOU SHOULD JOIN OUR 1-DAY-SEMINAR!

22 JANUARY 2020 IN COPENHAGEN

Animal Welfare

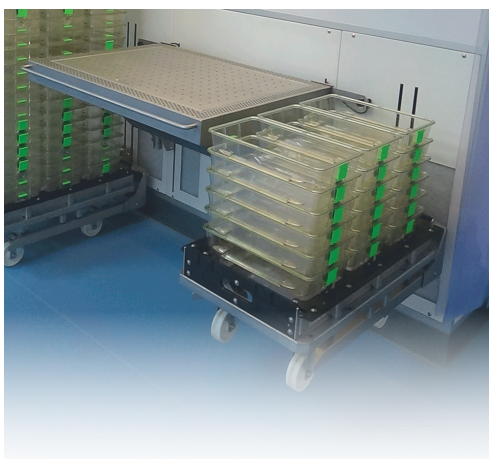

Monitoring

Watering

Productivity & Capacity

Ergonomics

Cleaning

- all parameters which are important to take into account when planning refurbishment of an animal facility.

Join our seminar and meet facility managers, engineering companies and equipment manufacturers sharing knowledge and experiences on how a refurbishment of parts of an animal facility can:

- optimize animal welfare
- increase productivity
- enhance working environment
- prevent breakdowns
- improve reproducibility of research
