

# SCANBUR at Virtual IAT Congress 9-25 March 2021

Stop by our virtual exhibition and learn more about how an accurately controlled relative humidity can improve animal welfare, breeding performance, the reproducibility of your research as well as provide huge energy savings.

Join us on Wednesday 10 March at 2:30pm for our Flash Trade Presentation, and check out our poster: 'Controlling Humidity - Improved Breeding and Validity of Research'.

Last but not least, make sure not to miss the Treasure Hunt.

We look forward to seeing you!

Best regards,  
Marlene & Josefine
