

# ANIMAL MODEL EVALUATION PROGRAM

Selecting the appropriate animal model for your study is critical for the reproducibility of your research and to ensure that no animal's life is wasted unnecessarily. The Charles River animal model evaluation program allows researchers to assess animal models in their research protocols, refine or validate their studies or simply to take their research in a different direction at no cost.

## Reduction:

Determine if an animal model fits your research protocols and avoid using the wrong animal model in large scale projects.

## Assess quality:

Assess the quality of Charles River animal models on your own terms.

## No cost:

Select the animal model you would like to evaluate, we provide at no cost.

Follow this link [http://wwwapps.criver.com/ModelEvalForm\\_eu/](http://wwwapps.criver.com/ModelEvalForm_eu/) to send your request online.
